

SCHOOL INTERNSHIP PROGRAMME

School internship programme is an important part of the teacher's training programme . It is an internal part of total B.Ed. course .This practicum approach adopted in the modern teacher education course aims to place a pupil teacher. Teacher in a real classroom situation under the supervision of a qualified teacher under one month/four month internship programme the pupil teacher are sent to school for a period of 4 weeks/16 weeks for teaching practice and monitoring system of the school .

The B.Ed. trainee involve in practice teaching, maintain time – table, school records, activities, celebrations and take part in assembly .

So many school activities are organized by pupil teacher on the better way .

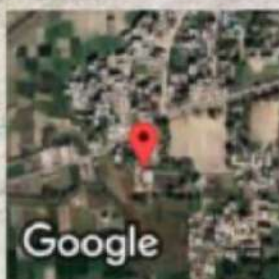

- **Exposure to Classroom Realities:** Interns actively participate in school operations, from attending morning assemblies to conducting tests and planning events. These experiences foster a deep understanding of the multifaceted role of teachers.
- **Skill Development:** The internship is a platform for practicing classroom management, developing teaching materials, and learning to communicate effectively with students and parents, thereby enhancing both soft and hard skills essential for educators.
- **Professional Growth:** Through these internships, student-teachers not only refine their teaching abilities but also build valuable networks, significantly improving their employability in the educational sector.
